

# COVID-19: APRIL 7TH UPDATE ON THE IMPACTS TO DEVELOPMENT APPLICATIONS AND HEARINGS

Posted on April 7, 2020

Categories: Insights, Publications

This is an update to our previous bulletins of March 23, 2020 and March 30, 2020, detailing the impacts of COVID-19 on development applications and hearings. Since the release of our last bulletin, the Province has renewed its declaration of a State Of Emergency and issued additional Emergency Orders under the Emergency Management and Civil Protection Act, RSO 1990, c. E.9. An updated list reflecting the status of a number of GTA municipalities may be found at the end of this update.

As contemplated in our previous bulletins, communications between the LPAT and numerous stakeholders have resulted in the LPAT recommencing limited operations via electronic and teleconference means as of April 6, 2020. These efforts are being supported in part by the Province's provision of additional broadband and teleconferencing resources to facilitate the Tribunal's work. In particular, the Tribunal issued a notice on April 2, 2020 indicating that it will consider exercising its discretion under O. Reg. 73/20 to lift the suspension on a case-by-case basis to begin moving outstanding settlement hearings forward. As part of the case-by-case assessment, the LPAT is requiring:

- submission of a settlement request form;
- all relevant information that demonstrates that there is no prejudice to any other party for the Tribunal to proceed by teleconference or written submission;
- an explanation of how the principle of "social distancing" is strictly adhered to throughout all steps necessitated in the presentation of the settlement to the Tribunal; and
- if applicable, suggestions for technological support that may facilitate the presentation of the settlement to the Tribunal.

More information respecting steps to advance a settlement hearing, including the requisite forms, is available on the ELTO website <u>here</u>, and the related news release can be found <u>here</u>.

The LPAT is, cautiously, also looking to move ahead with procedural orders, written and teleconference hearings on other than Settlement hearings, but no confirmation has been made at this time. The LPAT has also indicated that if parties mutually agree to work together to comply with existing Procedural Orders to

advance matters for hearings scheduled after June 30, 2020 they will support these initiative.. In addition, in order to prevent as much backlog as possible, adjudicators continue to work on issuing outstanding decisions. However, all front-line counter services remain closed, and parties are cautioned to expect processing delays for documents submitted by mail or courier. Documents (other than appeal records) may be filed electronically. Current updates to the LPAT procedures may be found here.

Despite the above, all statutory timelines such as those found in the *Planning Act* remain suspended retroactive to March 16, 2020, pursuant to O. Reg. 73/20. Industry stakeholders such as BILD have been seeking answers to the many questions raised as a result, anticipating clarification from the Ministry of Municipal Affairs and Housing. In addition, it is anticipated that the LPAT will also be posting a "Q&A" section on its website to address the numerous questions and comments received – for example, questions respecting matters that have key procedural dates both pre- and post-June 30th.

Pursuant to O. Reg. 73/20, the suspension of time periods under the regulation is for the "duration of the emergency". Pursuant to the *Emergency Management and Civil Protection Act*, R.S.O. 1990, c. E.9, an emergency can be extended up to 14 days only once, by the Lieutenant Governor in Council (s.7.0.7(2)), after which the Assembly, on recommendation of the Premier, may extend the period for additional periods of 28 days (7.0.7(3)). On March 30, 2020, the Premier extended the State of Emergency in Ontario for another 2 weeks, thus extending suspensions under O. Reg. 73/20 another 2 weeks (until April 14, 2020). The duration of O. Reg. 73/20 is further subject to renewal under s.7.1(4) or (5) of the Act, being in the event that the temporary suspension will need to exceed 90 days.

### The Status of GTA Municipalities

The below represents a list of those municipalities in which we experience the most volume of development applications and appeals. The information has been obtained from the municipalities' websites or from direct communication from the municipalities and, as such, is subject to confirmation. Please also note that the status of the matters contained herein are evolving rapidly and may not be the most current. If you have a question relating to a specific municipality not included in the list below, please do not hesitate to contact us.

# **Region of Peel**

- Development Services staff are available to participate in one-on-one phone calls, conference calls, or virtual meetings.
  - Submissions via courier or mail will not be accepted as counters are currently closed to the public.

    Contact the Peel employee assigned to your application directly to arrange for electronic submissions.

    Payments cannot be processed by cheque, visa or debit at this time. Development Services is currently investigating electronic fund transfer methods, while working with the local municipalities on alternative payment options.
- Building Permits:
  - Applications are administered at the local municipality; Region provides Servicing Approval for Water and Waste/Storm Water connection approval. Servicing staff are still reviewing applications and taking them to the approval stage.
  - Payments cannot be processed by cheque, visa or debit at this time. Region is working with
    accounts receivable to receive payments in the form of Electronic Fund Transfers so that they can
    provide their final Site Servicing clearance to the applicant. Meanwhile, Region is working with the
    local municipalities on alternative payment options.
- Issuing for Construction (IFC) process is being evaluated case-by-case based on criticality of the site and availability of Water Operators (this is under review as resources are very limited, therefore field services may be temporarily delayed or deferred).

### **Region of York**

- Declared State of Emergency on March 23, 2020
- York Region facilities are currently closed to the public.
- Applications: Building Permits are administered at the local municipality.
