November 13, 2018

8:30 am - 12:15 pm

Toronto

McMillan is pleased to host its third annual Privacy, Data Protection & Cybersecurity Seminar in Toronto.

Privacy, data protection and cybersecurity are significant areas of concern for businesses, governments and individuals. McMillan is committed to helping our clients understand the laws in this area, as well as, reduce and mitigate their risks.

Topics include the following:

- A keynote speech on the GDPR and its implications for Canadian businesses, presented by an EU expert.
- Case Law Update - Recent Significant Privacy Decisions
- Artificial Intelligence - Privacy and Cybersecurity Implications
- CASL Update - Key Developments
- Preparing for PIPEDA's New Breach Recording and Reporting Requirements

This program is eligible for up to two (2) Substantive Hours.

Speakers:

Ryan Black McMillan LLP

Felix Hilgert Osborne Clarke

[Mitch Kocerginski](#) McMillan LLP
