

IS YOUR SITE READY FOR RECREATIONAL CANNABIS?

Posted on September 5, 2018

Categories: [Insights](#), [Publications](#)

The legalization of recreational cannabis this October raises significant safety concerns for contractors. Legalization will bring easier access to cannabis and end the social stigma of using an illegal drug. Many contractors fear this will lead to a spike in cannabis use and increased impairment on construction sites. However, there are a number of steps contractors can take to reduce the safety risks that may arise from cannabis legalization. [Read more](#)
