The 22<sup>nd</sup> edition of **Lexology Getting the Deal Through – Cartel Regulations 2022** is the most current and comprehensive source of information about cartel laws and enforcement around the world. Anti-cartel provisions are a core pillar of every competition law regime. This reflects the broad consensus that certain types of competitor coordination are so unlikely to have pro-competitive or efficiency-enhancing benefits that they can safely be prohibited and penalized without a case-specific assessment of anti-competitive effects.

**Lexology Getting the Deal Through – Cartel Regulations 2022** provides a detailed explanation of how cartel regimes work in practice, including recent developments over the past year and an overview of future changes expected in each jurisdiction. In addition to the in-depth coverage provided for 29 of the most active jurisdictions, this edition also includes new chapters for Belgium and Costa Rica.
