

LEXPERT RECOGNIZES 12 MCMILLAN LAWYERS IN THE 2023 SPECIAL EDITION ON TECHNOLOGY AND HEALTH SCIENCES

Posted on June 26, 2023

Category: [News](#)

Twelve of the firm's lawyers are recognized for their remarkable competencies in the *2023 Lexpert Special Edition on Technology and Health Sciences*. Their expertise in the fast-moving industries of technology, life sciences, and healthcare exemplify McMillan's commitment to maintaining leading-edge industry knowledge in support of our clients' needs to stay ahead in their markets. Congratulations to:

- Paul Barbeau, Calgary (Technology)
- J.R. Beaudrie, Toronto (Technology)
- Adam Chisholm, Toronto (Technology)
- David Kent, Toronto (Technology)
- Lindsay Lorimer, Toronto (Health)
- Scott Maidment, Toronto (Health)
- Greg McIlwain, Calgary (Technology)
- Lisa Parliament, Toronto (Health)
- Leo Raffin, Vancouver (Technology)
- Pablo Tseng, Vancouver (Technology)
- Lyndsay Wasser, Toronto (Technology)
- Stephen Wortley, Vancouver (Technology)

McMillan lawyers were selected based on their high rankings in the *Canadian Legal Lexpert Directory* and their recognized industry expertise. Their areas of practice and experience spans across Class Actions, Corporate Finance & Securities, Data Protection & Privacy, Intellectual Property, Litigation – Corporate Commercial, Litigation – Intellectual Property, Litigation – Product Liability, Mergers & Acquisitions, Technology Transactions, and Telecommunications

The *2023 Special Edition on Technology and Health Sciences* is a digital-only edition that will be distributed on June 26, 2023 via the *Globe and Mail* and Key Media's own industry channels. View the full version of the guide [here](#).

Technology Practice

McMillan's [Technology Lawyers](#) are strategic professionals who have a wide range of experience with cutting-edge technologies and the challenges they present. This group offers capable, enthusiastic legal expertise to the world's emerging and established tech companies. That includes hardware and software companies, outsourcing firms, and networking and other IT service providers who specialize in data management and security. McMillan also has lawyers who specialize in e-commerce, blockchain and fintech. Our clients trust us to guide them through a range of major transactions, to examine their privacy and data concerns, to maximize the value of their data and intellectual property assets, and to provide targeted advice on other legal matters essential to their growth.

Healthcare Practice

McMillan's [Life Sciences Industry Group](#) serves public and private sector clients in the healthcare, pharmaceuticals and biotechnology industries. Our clients trust us to provide the strategic counsel that their complex, ever-evolving regulatory environment demands. We believe in our clients' missions and take an integrated approach to delivering comprehensive, customized legal solutions. McMillan lawyers offer thorough knowledge of healthcare laws and regulations. We position clients to bring new innovations to the market profitably, handle intellectual property issues strategically, steer dispute resolution and litigation, and advise on a myriad of other legal matters essential to success in healthcare.
